Flüchtlingsprojekt auf Lesbos

Dear friends,

The Board and the members of Coexistence and Communication in the Aegean (Siniparxi) would like to thank you once again not only for your recent donation, but also, above all, for your valuable help for over 5 years. This assistance has allowed us to support thousands of refugees and migrants who have passed through the island of Lesbos, making their difficult stay here more humane. We have supported them not only by answering their immediate needs, such as food and clothing, but also in artistic, educational, and athletic activities.

After Moria camp burnt down it was necessary to meet the need for clothing and supplies for the winter, since people had lost these in the fire. We have also provided food. The quantity of food supplied in the temporary reception center is still inadequate, and it is of poor quality. We continue these activities to the present day, focusing on support for the thousands of people who have been deprived of their monthly allowance, either because they have been granted asylum or because their asylum application has been rejected after appeal. With your donations our actions can continue until July. Our association consists solely of volunteers, so all donations go directly to help for refugees

We would also like to thank our good friends Ioanna Zacharaki and Konstantinos Eleftheriadis, who are our link with you.

We wish you all the best. May your humanitarian actions always continue.

Stratis Pallis                      president
